

Comments of the Northern California Power Agency

Energy Imbalance Market (EIM) Governance Review: Draft Final Proposal for Formation of an EIM Governance Review Committee

The Northern California Power Agency (NCPA) appreciates the efforts of California Independent System Operator (CAISO) to create an Energy Imbalance Market Governance Review Committee (GRC). NCPA supports the Draft Final Proposal for Formation of an EIM Governance Review Committee and supports its adoption on June 28, 2019, by both the CAISO and the EIM Governing Body. NCPA appreciates the changes from the straw proposal regarding publicly-owned utility sector classification. NCPA has reviewed and supports the comments filed earlier this week by the California Municipal Utilities Association, and particularly supports the need for the GRC to adequately reflect both California and non-California perspectives.

NCPA appreciates the opportunity to comment on this effort.
