Re: Notice of Planned Decisional Classification for “Storage Bid Cost Recovery and Default Energy Bids Enhancements – Track 1”

Any objection by the Chairs to this decisional classification is due by October 30, 2024.

This is formal notice of Management’s decisional classification for “Storage Bid Cost Recovery and Default Energy Bids Enhancements – Track 1.” This initiative proposes to update the calculation of real-time bid cost recovery for storage resources. Management believes that the WEM Governing Body has joint authority with the ISO Board of Governors over these proposed changes.

Any objection by the Chairs to this decisional classification is due by Wednesday, October 30, 2024. Otherwise, the initiative will be presented for decision consistent with this classification.¹

The proposed tariff rule changes contemplated in this initiative are “applicable to the WEIM/EDAM entity balancing authority areas, WEIM/EDAM entities, or other market participants within the WEIM/EDAM entity balancing authority areas, in their capacity as participants in WEIM/EDAM.” Therefore, the decision to approve these changes falls within the scope of joint authority.

Written stakeholder comments on the revised draft final proposal were due October 23, 2024. No commenter objected to the proposed classification.

The revised draft final proposal for this initiative is located [here](#). Additional relevant papers for this initiative are located [here](#).
