Re: Notice of Planned Decisional Classification for “Congestion Revenue Rights Auction Efficiency”

Any objection by the Chairs to this decisional classification is due by March 5, 2018.

This is formal notice of ISO Management’s decisional classification for the “congestion revenue rights auction efficiency” initiative. Any objection by the Chairs to the decisional classification is due by March 5, 2018. Otherwise, this initiative will be presented for decision consistent with the classification described below.¹

This initiative does not fall within the authority delegated to the EIM Governing Body. The initiative will go to the Board for approval and the EIM Governing Body will have no role in approval.

This classification is consistent with the classification presented in the Briefing on Policy Outlook at the November 29, 2017 EIM Governing Body meeting.

The draft final proposal for this initiative is located [here](#). Supplemental information about the proposed decisional classification for this initiative is located [here](#). Additional relevant papers are located [here](#).

Written stakeholder comments on the draft final proposal, including the proposed classification, were due February 28. There were no objections to the decisional classification in the draft final proposal.

¹ The process is described in the Guidance for Handling Initiatives within the Decisional Authority or Advisory Role of the EIM Governing Body at <http://www.caiso.com/Documents/GuidanceforHandlingPolicyInitiatives-EIMGoverningBody.pdf>.
