

Comments on CAISO 2024 and 2028 Local Capacity Technical Study Base Cases

Submitted by	Company	Date Submitted
Igor Grinberg	Pacific Gas and Electric	Jan 30, 2023

Dear CAISO Transmission Planning team,

PG&E appreciates the opportunity to provide comments on the Local Capacity Requirements (LCR) Draft Study Manual and initial 2024 and 2028 base cases. Below please find PG&E's brief comments.

There are three PG&E less than \$50 Million projects which were recommended for approval in the Nov. 17, 2022 Stakeholder meeting (i.e., Banta 60 kV Bus Voltage Conversion Project, Metcalf 230/115 kV Transformers Circuit Breaker Addition Project and South Bay Area Limiting Elements Upgrade Project). PG&E recommends including the three projects in the LCR study based on the project estimated ISDs.

If you have any questions regarding PG&E's comment, please feel free to contact me.

Thanks,

Igor Grinberg
