

California ISO - Policy Initiatives Stakeholder Prioritization Survey

The California ISO is planning to modify the schedules of current policy initiatives to accommodate the addition of the expedited EDAM Congestion Revenue Allocation initiative. These schedule changes are intended to maintain policy development momentum while better accommodating stakeholder availability and enabling full stakeholder participation in existing initiatives.

The goal of this survey is to collect information on stakeholder priorities and capacity to participate in ISO policy initiatives and use this information to inform changes to policy initiative schedules.

* **1** Please enter your full name

* **2** Please enter your organization name

- 3 Please assign priority to the current initiatives, with more points indicating higher priority. You may assign as many or as few points as you'd like to each initiative as long as the total sum adds up to 100.

California ISO - Policy Initiatives Stakeholder Prioritization Survey

Part 2: Proposed New Policy Initiatives

Please prioritize the new policy initiatives submitted by stakeholders in February 2025 to be considered for inclusion in the 2025 Catalog and Roadmap. Select ONE highest priority initiative and describe your organization's level of support for all other initiatives. This prioritization is an input into determining the policy initiatives that the ISO will support in 2026 – 2028.

The full text of submitted initiatives can be viewed [here](#), and a summary of submitted initiatives is located [here](#). All materials as located on the 2025 Policy Catalog and Roadmap webpage.

5 Select ONE of the following proposed initiatives as your organization's highest priority:

- ☐ Settlement enhancements in the EIM (Bonneville Power Administration)
- ☐ Real-time congestion offset enhancements (California Department of Water Resources – State Water Project)
- ☐ Standalone uplift payment for uneconomic dispatch of BESS resources (NextEra Energy Resources, LLC)
- ☐ Remove VER “must-follow” flag for co-located BESS providing ancillary services (NextEra Energy Resources, LLC)
- ☐ Flexible Ramping Product enhancements (PacifiCorp)
- ☐ Economic intertie bidding under EDAM (Vitol, Inc.)
- ☐ On-going transparency effort (Western Power Trading Forum)
- ☐ Internal and external market seams issues (Western Power Trading Forum)
- ☐ EDAM enhancements (Western Power Trading Forum)

Describe your organization's support for each of the following proposed initiatives:

Options: Support, Oppose, Neutral

6 Settlement enhancements in the EIM (Bonneville Power Administration)

- ☐ Support
- ☐ Neutral
- ☐ Oppose

7 Real-time congestion offset enhancements (California Department of Water Resources – State Water Project)

- ☐ Support
- ☐ Neutral
- ☐ Oppose

8 Standalone uplift payment for uneconomic dispatch of BESS resources (NextEra Energy Resources, LLC)

- ☐ Support
- ☐ Neutral
- ☐ Oppose

9 Remove VER “must-follow” flag for co-located BESS providing ancillary services (NextEra Energy Resources, LLC)

- ☐ Support
- ☐ Neutral
- ☐ Oppose

10 Flexible Ramping Product enhancements (PacifiCorp)

- ☐ Support
- ☐ Neutral
- ☐ Oppose

11 Economic intertie bidding under EDAM (Vitol, Inc.)

- ☐ Support
- ☐ Neutral
- ☐ Oppose

12 On-going transparency effort (Western Power Trading Forum)

- ☐ Support
- ☐ Neutral
- ☐ Oppose
