

Idaho Power Company Transmission Products

CAISO WG-2
Kathy Anderson
January 2022

Transmission Service

- All transmission service requests are submitted on OASIS
- Idaho Power Business practices outline information on requesting transmission service.

<http://www.oasis.oati.com/ipco/index.html>

Firm Point-to-Point Transmission Service

- Long-Term Firm (Yearly) – 12 months or greater
- Monthly Firm – Up to 11 continuous months
- Weekly Firm
- Daily Firm

- Firm Point-to-Point service can be redirected either firm or non-firm subject to ATC

Non-firm Point-to-Point Transmission Service

- Monthly Non-Firm – Up to 2 continuous months
- Weekly Non-Firm – up to 3 continuous weeks
- Daily Non-Firm – up to 5 continuous days
- Hourly Non-Firm – at least one hour in a single calendar day for up to 72 hours (must be pre-confirmed)

Network/Native Service

- Network Service – Must have a contract for Network Integrated Transmission Service
 - Identifies specific loads and resources
 - Terms of service vary depending on customer but for Idaho Power all are long-term
- Native Load – Load service for Idaho Power retail load – no specific formal contract but must abide by same rules as network service
 - Identifies specific resources to use firm network transmission
